OBJECTIVE

To secure a position that allows me to utilize my proficiency in designing photos and editing videos, while also providing opportunities for continuous growth and professional development in the IT field. I strive to apply my technical acumen, problem-solving abilities, and artistic flair to enhance user experiences and deliver exceptional results.

EXPERIENCE

❖ **Front-end Developer**   August 2022 - Till date
Jetsmart IT Services, Bhubaneswar.
- Developed and maintained responsive websites using WordPress, HTML, CSS, and JavaScript
- Collaborated with designers, content creators, and backend developers to ensure seamless integration of frontend and backend functionalities
- Optimized website speed and accessibility through code optimization, caching, and image compression
- Tested and debugged website code to ensure cross-browser compatibility and functionality across different devices
- Provided technical support and guidance to clients during and after website launch

EDUCATION

❖ **Master Of Computer Application**   2020-2022
Gandhi Institute For Technology, Bhubaneswar.

❖ **Bachelor Of Computer Application**   2017-2020
S.V.M. Autonomous College, Jagatsinghpur

❖ **+2 Science**   2015-2017
Adikabi Sarala Das College, Tirtol

❖ **10th**   2015
Kapileswar High School, Khurusiapat

ACHIEVEMENT

❖ Received employee recognition award for demonstrating dedication and hard work in delivering a website project within a tight deadline, working overnight to ensure its completion.
